When & What is Required for New Federal Regulations for Professional Licensure Notifications?

Cheryl Dowd
Director, WCET/State Authorization Network (SAN)
cdowd@wiche.edu
https://wcetSAN.wiche.edu
Key Elements
New Federal Regulations – effective 7/1/20

1. Regulations address all modalities (includes Face to Face and Online)
2. Important to understand the type of Educational Program subject to notifications.
3. Important to know the information to be provided for public notifications.
4. Important to know what and when information is to be provided for direct/individualized notification.
1. **December 2016**: Department of Education released regulations written by the Department including distance education notifications.

2. **July 2018**: on eve of effective date, the Department delayed the effective date of the regulations for purpose of review and revision.

3. **April 3, 2019**: consensus reached in the Department’s negotiated rulemaking process with a revision to the regulations regarding notifications.

4. **May 26, 2019**: previously delayed regulations became effective due to U.S. District Court decision to vacate the delay.

5. **November 1, 2019**: final regulations released directing professional licensure notifications for prospective and enrolled students regardless of modality.

6. **July 1, 2020**: new regulations replace the previous regulations, so now professional licensure notifications are for face to face and online programs leading to professional licensure or certification.

---

**How We Got To Notifications for all Modalities!**
What Types of Educational Programs require notifications?
34 CFR 668.43(a)(5)(v)

Educational Programs

- Designed to meet educational requirements
  - for a specific professional license or certification that is
  - required for employment in an occupation, or

- Advertised as meeting such requirement.

- Information regarding whether completion of that program would be sufficient to meet licensure requirements in a State for that occupation.
What must the Public notification include?

34 CFR 668.43(a)(5)(v)

Institutions will place each state and territory in one of these categories:

- A list of states for which the institution has determined that the curriculum meets licensure requirements.
- A list of states for which the institution has determined that the curriculum does not meet licensure requirements.
- A list of states for which the institution has not made a determination whether the curriculum meets licensure requirements.

The CFR indicates that public notifications may be on internet website. The CFR indicates that states means States and Territories.
Direct/Individualized Disclosures
34 CFR 668.43(c)

The Prospective Student:
• if the institution indicates that the curriculum DOES NOT meet state educational requirements where the prospective student is located; or
• NO DETERMINATION where the prospective student is located,
• a notice to that effect must go to the student for the state where they are located prior to enrollment in the program.
• Prior to enrollment in the program = prior to a financial commitment.

The Enrolled Student:
• if the institution indicates DOES NOT meet the state educational requirements
• in the location where the student is currently enrolled in the program,
• the notice to that effect must be provided
• within 14 calendar days of the institution making that determination.
How Can CAAHEP and other Programmatic Accreditors Help with Compliance?

- Programmatic Accreditors can be the bridge between higher ed and licensing boards.
- Programmatic Accreditors can help direct institutions to licensing requirements.
- Programmatic Accreditors can leverage their relationships with professions to help persuade the licensing boards, as subject matter experts, to coordinate and make more clearly available the state educational requirements.

Institutional Approach to Federal Professional Licensure Disclosure Requirements

Handbook – Professional Licensure Disclosures? Implementation Handbook for Institutional Compliance with the 2019 Federal Regulations (in resources section at end of Cheryl’s presentation)
Institutional Project Strategy

• Why is compliance important?
  o It’s the law
  o Student as consumer
  o Institution’s moral obligation
  o Marketing advantage

• Unique institutions
  o Risk tolerance

• Defensible policies
Institutional Challenges

• Institutional leadership
  • Juggling many priorities
  • General counsel concern re: liability
  • Commitment to ongoing compliance responsibility
  • Policies and practices
    • DOE latitude

• Other staff
  • Faculty pushback
  • Disclosures may be contrary to marketing dept’s goals
  • Understanding compacts
    • Post rather than pre-licensure
Institutional Challenges, cont.

- Compliance staff
  - Project management plus leadership skills
  - Access to information
    - Subject matter experts
    - Data
      - Student location
      - Program content
  - Disclosure content and logistics
External Challenges

• Licensing Boards not part of the development of the notification requirements
• Disconnect between higher education and licensing boards
• State licensing boards often do not have the staff to respond to inquiries
  • The importance of a well drafted email!
Foundation of a Compliance Plan

- Data must be solid
  - Student location
  - Curriculum content
- Verify applicability of assumptions used in existing reports
- Develop a Program List for those that are *Designed to meet* or are *Marketed as meeting educational requirements*
- Broad swath to avoid liability
  - Face to face and distance ed
  - State definitions of licensed professions vary greatly
  - Eventually all 50 states
- Documentation is critical
Foundation of a Compliance Plan

• State regulatory requirements
  • Requirements for student to be licensed
  • Curriculum requirements – need approval?
  • Encourage thorough research first before contacting professional board
    • Good starting point is the national association for the profession

• Create matrix of Program List and compare institutional offerings to requirements for general disclosures – Meets, Doesn’t Meet, No Determination

• Direct disclosures tailored to student and state for Doesn’t Meet and No Determination
  • Timing for enrolled students
Student Location Key Points

- The institution must have a policy for determining student location
- The institution must have a policy for being notified when a student has relocated
- The policies must be consistently applied across groups
- The data needs to be accessible for compliance reporting
- The practice across the institution MUST match the policy
  - If not, make revisions so that they align
- There are plenty of resources available to help institutions create these policies
- Not knowing where the students are located is not an option
Notifications and Disclosures for SARA Institutions

Jeannie Yockey-Fine
General Counsel, NC-SARA
Modifications to Align with Federal Regulations

NEW Language

5.2 Programs leading to Professional Licensure
SARA has no effect on State professional licensing requirements. Any Institution approved to participate in SARA that offers courses or programs designed to lead to Professional Licensure or certification or advertised as leading to Licensure must satisfy all federal requirements for disclosures regarding such Professional Licensure programs under 34 §C.F.R. 668.43. For SARA purposes, these requirements will also apply to non-Title IV institutions.

For SARA purposes, institutions that are unable, after all reasonable efforts, to determine whether a program will meet state professional licensure requirements shall provide the student or applicant with current contact information for any applicable licensing boards, and advise the student or applicant to determine whether the program meets requirements for Licensure in the State where the student or applicant is located.
Impact on SARA

For all SARA institutions (Title IV and non-Title IV):

- **General** disclosures are now required.
- **Direct** disclosures are required when an institution knows that the program will not meet licensing requirements and when it does not know.
- Institutions are required to provide **contact information** for professional licensing boards when the institution cannot determine, after all reasonable efforts, whether their course or program will meet the licensing requirements.
Professional Licensure Directory

NC-SARA has worked with the SARA State Portal Entities (SPEs) and regional compacts to create the Professional Licensure Directory, which provides contact information for five programs that lead to a professional license.

This resource will NOT house regulations or requirements. It is exclusively general contact information. We will update the contact information twice annually.
