From the President  by Bill Horgan

This is my last message as President of CAAHEP and I would like to take this time to offer a comment, say thanks, ask a favor and welcome our new President.

Comment: CoARC gave notice during my watch of their intent to leave CAAHEP and last month they have given further notice that they have moved up their separation date from January 2010 to November of this year. I do not look at this as a good thing for either of us. I told CoARC when we first received notice that both CAAHEP and CoARC will lose something by their leaving.

I am not an educator; my forty years behind the pump has been clinical. But I know that when there is no oversight or accountability of a profession's education by a third party you have a poor education system.

Thanks: I want to thank Kathy and her staff for helping me look like I knew what I was doing. Kathy and her staff are a very hard working group that made being President so much easier than it might have been. I thank you.

I want to thank the other directors on the Board; without their hard work and collective wisdom we would not have made the progress we did these past two years.

Most of all I want to thank each Commissioner for trusting me and the Board, for taking on some of the ownership of CAAHEP during our Leadership meetings, for doing all of the hard work at the CoA level because you see that as your roll in this accreditation process. It is only because we all worked together we are where we are today. I thank you for that.

Favor: This is not so much a favor as it is a reminder. Since 1994 my mantra has been that CAAHEP is not an “Us versus Them” agency. We are all CAAHEP. Remember, you pay your money, you have a vote; a voice in how this agency operates. This Board is elected from the membership. It is not an outside organization telling you how things will be done. If you are a Chair of a CoA go to the Leadership meetings. If you are a Sponsor make sure you are not just sending in your dues, get involved. If you are asked to help with a project say, “Yes!” Because we are all CAAHEP it will take all of us working together to make it better tomorrow.

Our New President: By now I hope you know Lacheeta McPherson, but if you don’t you soon will. Lacheeta takes over July 1st and because of her organizational skills she is already handing out assignments. I know that if asked to help you will step up and say yes.

I also know that before the January Leadership meeting most, if not all of you will be saying Bill who? And that’s just fine with me because Lacheeta and her Board are taking CAAHEP forward. You’re going to like working with her.

Once more, it has been an honor serving CAAHEP.

And Introducing…

CAAHEP’s New President

M. LaCheeta McPherson takes the reins effective July 1, 2009. LaCheeta has over 34 years of experience in health-care education with the last 29 years being spent at El Centro College in Dallas. She is currently the Executive Dean of Health and Legal Studies where she administers 17 health career programs.

LaCheeta has been active in her professional organizations, having served on the National Network for Health Career Program in Two Year Colleges (NN2) Board for six years, including President. She has represented NN2 as a Commissioner for CAAHEP since 2004 and has been on the CAAHEP Board since 2006. She has worked on several projects and committees for CAAHEP, including YAM, Your Accreditation Mentor. She continues to serve as a site visitor for various accreditation agencies.

“CAAHEP 2009: A Time of Change, Challenge and Collaboration”

The 15th Annual Meeting of CAAHEP exemplified its three-fold theme, focusing on lots of important changes, exploring the many challenges that face us all and demonstrating the value of collaboration.

After a Keynote Session that energized conference-goers with strategies for dealing with challenges in times of change, we heard about challenges such as disaster preparedness in tough economic times.

Monday morning’s focus was very much on collaboration as we heard from what was soon-to-be our newest profession (lactation consultant) and from one of CAAHEP’s Committees on Accreditation whose collaboration with CAAHEP is helping them face big changes and challenges (CoAEMSP). Another major change discussed is METC - the largest consolidation of military training in the history of the Department of Defense.

After a day and a half of serious business the meeting ended with a reception and entertainment (see below).

The 2009 CAAHEP Annual Meeting in San Antonio wrapped up with a terrific performance by the all-female Mariachi Las Altenas

Two Meetings to Know About

All roads seem to lead to Texas this year! CAAHEP’s Annual Meeting was held in San Antonio and two of CAAHEP’s sponsoring organizations are also meeting this year in the Lone Star State.

The National Network for Health Career Programs in Two-Year Colleges (NN2) - 2009 Annual Conference, “Making the Pieces Fit,” is September 30 to October 2, 2009 at the Fairmont Hotel in Dallas, Texas.

Commissioners Vote “Yes” on a New Profession, a New Committee on Accreditation and Four New Sponsoring Organizations!

CAAHEP is delighted to welcome its twenty first (21) profession to our system, formally known as Human Lactation and Breastfeeding Consultants, this discipline has thousands of certified professionals providing services around the world.

Along with approval of the profession, the Commission also approved a new Committee on Accreditation - the Accreditation and Approval Review Committee on Education in Human Lactation and Breastfeeding.

This new Committee has already drafted policies and is hard at work on proposed Standards. The Committee has two sponsoring organizations (also approved at the 2009 meeting): The International Lactation Consultant Association and the International Board of Lactation Consultant Examiners.

Commissioners also approved two new sponsoring organizations for the Committee on Accreditation of Educational Programs in the EMS Professions (CoAEMSP). CAAHEP is honored to welcome the American Ambulance Association and the International Association of Fire Chiefs as sponsors.

The Committee on Accreditation for Respiratory Care, which had previously announced its intention to withdraw from CAAHEP effective January 15, 2010, has changed the effective date of their withdrawal to November 11, 2009.
AMA's Health Care Careers Directory reorganizes
New design includes “Allied Health” section; more than 8,000 educational programs listed

Chicago, IL—The new 2009-2010 edition of the Health Care Careers Directory, from the American Medical Association (AMA) has been reorganized to make it easier for students, career counselors, and program directors to quickly find the information they're seeking. This edition will include the following categories:

- Allied Health
- Complementary and Alternative Medicine and Therapies
- Communication Sciences
- Counseling and Psychology
- Dental-Related Occupations
- Dietetics
- Expressive/Creative Arts Therapies
- Health Information and Communication
- Laboratory Science Professions
- Nursing
- Pharmacy
- Physician
- Physician Assistant
- Podiatry
- Radiologic Technology
- Therapy and Rehabilitation
- Veterinary Medicine
- Vision-Related Professions

“The Directory is now more than ever the number-one resource for information on the diverse career opportunities in the health care field,” said Paul H. Rockey, MD, MPH, director of the AMA Division of Graduate Medical Education.

Program data are displayed in a chart format, allowing you to quickly and easily compare various programs and find the one you’re seeking. Chart data include class capacity, start dates, program length(s), tuition, academic award(s) granted, and availability of evening/weekend courses.

In addition to a complete listing of all accredited programs, with program name, address, and contact information, the Directory includes a handy description of each profession’s job duties, required education, and average salary.

The experts agree: A review by Doody’s Review Service awarded the Directory a perfect 5-star ranking (received by only 8% of books reviewed) and called the Directory an “outstanding resource,” a “must have” for all libraries, and a “highly recommended resource for healthcare professionals.”

The CEOs of all institutions with CAAHEP-accredited programs will receive a copy of the Directory courtesy of CAAHEP.

To order extra copies, call (800) 621-8335 or see www.amabookstore.com.

To receive a copy of the order form, send an e-mail to meded@ama-assn.org. For fastest service, be sure to specify the phrase "HCCD" in the e-mail's subject line.
People who Make a Difference

It’s About Time!!

The 2009 CAAHEP Award for Exceptional Service was presented to Sondra Fleming.

Sondra is a past-president of CAAHEP and has been active in CAAHEP from its very start, serving on more committees and task forces than we have room to list! She continues her commitment to quality assurance, serving as a member of the new Accreditation and Approval Review Committee on Education in Human Lactation and Breastfeeding and as the CAAHEP Liaison to the Cytotechnology Programs Review Committee.

Public Members

Why would a member of the general public choose to devote time and energy to this obscure field of accreditation? Well, we’d have to ask them for the answer. But what we do know is that CAAHEP has been very lucky indeed when it comes to finding hard-working, dedicated public members.

A Fond Farewell...

After six years on the Board we want to thank Steve Rodgers for his many contributions during his service on the Board. Steve chaired our first Audit Committee, helping us develop policies to come into compliance with provisions of the Sarbanes-Oxley Act.

Steve has a unique ability to cut to the heart of a matter, a talent that served the Board well on many occasions. Thank you Steve!

And a Warm Welcome...

Even as we say farewell to Steve Rodgers, we welcome to the Board of Directors our new public member, Jinny Gender.

Jinny is a social worker by training and she has served on an array of nonprofit boards from her local National Public Radio Station (where she is past president) to the St. Louis County Shelter for Abused Women and Friends of the Kirkwood Public Library (where she has been president since 2006). She brings with her a particular expertise in testing, licensure and certification issues, having served on as the public member on numerous testing and certifying bodies, including the American Registry of Diagnostic Medical Sonographers. Welcome Jinny!

And One Additional Farewell...

The CAAHEP Bylaws also provide for a Commissioner who represents recent graduates. This position is, by definition, limited to one term only. CAAHEP’s policies specify that this Commissioner may address the Commission at the Annual Meeting on a topic of his/her choice.

That responsibility was taken to a new and higher level by Molly Marko, the outgoing Recent Graduate Commissioner. Molly wowed us all with her presentations at CAAHEP Annual Meetings, including surveys that she conducted of students in accredited programs asking about their knowledge of, and attitudes toward accreditation. She also did a survey about the attitudes of students toward certification.

Everyone on the Board and the Commission will miss Molly’s enthusiasm and fresh view of the world and we wish her great success in her future career — we suspect that we’ve not heard the last from Molly Marko!

The CAAHEP Board will be appointing a new Recent Graduate Commissioner at their July meeting.
Health care "hunkering down" to weather the economic storm
by Fred Lenhoff

Students in CAAHEP-accredited programs (and program administrators as well) would be well advised to keep up to date on trends in the health care marketplace and whether the nation’s economic downturn is having an effect on the health care workforce.

A recent issue of the Health Care Careers e-Letter, published monthly by the American Medical Association (AMA), reflected on this topic and linked to an article in Health Leaders Media that described health professionals as “digging in, putting their heads down, and staying put until the storm passes.” The article also noted that reduced patient volumes in hospitals are leading to reduced staffing demands.

A related article in the same issue of Health Leaders Media describes the current crisis as an opportunity for hospital management (for example, “You don’t have to worry about upward pressure on wages as unemployment reaches 8%-10%.”).

Indeed, at one Kansas City hospital, merit raises were trimmed for some employees to help avoid layoffs, as reported in the March 2 Kansas City Star.

To stay informed on these and other health care workforce concerns, subscribe now to the AMA’s e-Letter, a free monthly newsletter distributed via e-mail. First produced in April 2000, the e-Letter covers education and career trends in the health professions for its 15,000 readers and contributors. These include health professions education program directors, deans, accrediting agencies, professional organizations, certifying/licensing boards, and federal/state governmental agencies.
